137 – Psalm 118:17 (KJV) “I shall not die, but live, and declare the works of the Lord.”

# ARTS IN BREVARD - WHAT’S HAPPENING IN THE VILLAGE?

Murals are making a vibrant comeback in Cocoa Village, and the community couldn’t be more thrilled. Recently, a surge of color-the historic district, adding a fresh aesthetic appeal to the area. Business owners are eager to jump on the bandwagon, especially with that will regulate mural installations. This development has spurred a rush to beautify their buildings before the process potentially more complex and costly.

The introduction of these permits could mark a significant shift in how murals are commissioned and displayed. Depending on the city’s final decision, the cost for these permits could vary widely. Possibilities include charging per square foot, per mural, per building, or only for business-related signage square footage. While these regulations aim to maintain a cohesive and tasteful visual landscape, they may also pose challenges for business owners who wish to enhance their storefronts with unique, artistic expressions.

Local artist Kole Trent is at the forefront of this mural renaissance. Known for his captivating and imaginative work, Kole has recently completed a stunning mural on the soon-to-open “Moonshine” restaurant, located across the street from the historic S.F. Travis Company. Kole’s mural is a testament to his love for animals, featuring a series of endearing animal portraits paired with a heartfelt handwritten message. This beautiful tribute is sure to catch the eye of passersby and add a touch of warmth to the bustling village.

On the opposite side of the restaurant, visitors can admire another classic Kole Trent creation: a vibrant floral mural. This piece showcases Kole’s signature style, combining bold colors and intricate patterns to create a visually striking masterpiece. Together, these murals not only enhance the aesthetic appeal of “Moonshine” but also contribute to the growing cultural landscape of Cocoa Village.

The response from the community has been overwhelmingly positive, with many praising the transformative power of public art. “Murals bring life and character to our village,” says a local resident. “They create a sense of pride and identity that resonates with both locals and visitors alike.”

As the popularity of murals continues to rise, so does the demand for talented artists like Kole Trent. For those interested in commissioning a mural, Kole’s team can be reached via Instagram at [Instagram.com/kole.trent](https://www.instagram.com/kole.trent), through email at [TrentMerchandise@gmail.com](mailto:TrentMerchandise@gmail.com), or by phone at 321-243-6589. Each mural installed by Kole is added to the **Space Coast Mural Map**, which can be found at [SpaceCoastMuralFestival.com](https://www.SpaceCoastMuralFestival.com). This map serves as a guide for art enthusiasts looking to explore the rich tapestry of murals throughout the Space Coast. The future of Cocoa Village’s mural scene looks bright, with more business owners recognizing the value of these artistic installations. As the community awaits the final details of the new permit regulations, one thing is certain: the vibrant spirit of Cocoa Village will continue to thrive, fueled by the creativity and passion of its local artists.

In the meantime, residents and visitors are encouraged to take a stroll through the village and experience the magic of these murals firsthand. Whether it’s the heartfelt animal portraits at “Moonshine” or the enchanting floral designs that grace its walls, there’s something for everyone to enjoy. The resurgence of murals in Cocoa Village is not just about beautifying buildings; it’s about fostering a sense of community and celebrating the unique cultural heritage of the area.

The village is on the cusp of an exciting artistic evolution, and everyone is invited to be a part of it. So, what’s next for the arts in Brevard? Christopher Sweeney, that’s what!

**Cocoa Beach**

Cocoa Beach is buzzing with excitement as the community prepares for a spectacular artistic event this August. Local teacher and acclaimed artist Christopher Sweeney is set to debut his latest collection at the Studios of Cocoa Beach, showcasing his unique and heartwarming style that has captivated many art enthusiasts. Christopher Sweeney, known affectionately as “Sweeney” among his peers and students, has made a significant impact in the art world with

Continued from front page.

his iconic XORobot. This whimsical character, featured prominently in his works, embodies a message of love and kindness, spreading positivity wherever it appears. The XORobot has become a beloved symbol in the Cocoa Beach area, resonating deeply with both children and adults.

Sweeney’s journey as an artist began long before his teaching career. His passion for art was evident from a young age, and he has since dedicated his life to creating pieces that inspire and uplift. His work is characterized by vibrant colors, intricate details, and, of course, the ever-present XORobot. This robot, often depicted with a heart symbol, serves as a reminder of the importance of love and empathy in our lives.

The upcoming exhibition at the Studios of Cocoa Beach is expected to be a highlight of the summer art scene. Sweeney’s latest collection promises to be a visual feast, filled with new interpretations of his beloved **XORobot** character. Each piece in the collection tells a story, inviting viewers to embark on a journey of imagination and emotion.

Sweeney’s art has always been more than just a visual experience; it’s a form of storytelling. Through his paintings, he conveys messages of hope, compassion, and the simple joys of life. His work often features scenes that blend reality with fantasy, creating a world where anything is possible. This sense of wonder and magic is what makes his art so appealing to people of all ages.

One of the most anticipated aspects of the exhibition is the opportunity to meet the artist himself. Sweeney is known for his approachable and friendly demeanor, and he enjoys engaging with his audience. Visitors will have the chance to learn more about his creative process, the inspiration behind his work, and the stories that each painting tells.

In addition to the exhibition, the Studios of Cocoa Beach will also host a series of interactive events throughout August. These events will include art workshops, live painting sessions, and discussions led by Sweeney. It’s a unique opportunity for the community to immerse themselves in the world of art and creativity, guided by one of their own.

Sweeney’s influence extends beyond the walls of galleries. His murals can be found throughout the Space Coast, adding splashes of color and joy to public spaces. Many of these murals are featured on the Space Coast Mural Map, making them accessible to locals and tourists alike. Notably, Sweeney’s work adorns several BnBs across the Space Coast, including the renowned Trent Art House in Merritt Island. These installations showcase his ability to transform ordinary spaces into extraordinary experiences, further cementing his reputation as a versatile and impactful artist.

For those interested in experiencing Sweeney’s work firsthand, the exhibition is not to be missed. The Studios of Cocoa Beach, known for supporting local talent and fostering a vibrant art community, provides the perfect backdrop for Sweeney’s new collection. The gallery’s inviting atmosphere and prime location make it an ideal destination for art lovers and casual visitors alike.

To explore Christopher Sweeney’s work further, you can visit his website at **Xosweeneyart.com** or follow him on Instagram at **Crsweeney1**. His online presence offers a glimpse into his artistic journey and showcases a variety of his creations, including the beloved XORobot.

As Cocoa Beach prepares for this exciting event, the anticipation continues to build. Christopher Sweeney’s latest collection promises to be a celebration of love, creativity, and community. It’s a testament to the power of art to bring people together and make the world a little brighter.

Mark your calendars for August and join the Cocoa Beach community in celebrating the incredible talent of Christopher Sweeney. Whether you’re a longtime fan or discovering his work for the first time, this exhibition is sure to leave a lasting impression. Don’t miss the chance to be part of this artistic milestone and experience the magic of the XORobot in person.

Fun By The Numbers

Like puzzles? Then you'll love sudoku. This mind-bending puzzle will have you hooked from the moment you square off, so sharpen your pencil and put your sudoku savvy to the test! Answer on page 12

Here's How It Works:

Sudoku puzzles are formatted as a 9x9 grid, broken down into nine 3x3 boxes. To solve a sudoku, the numbers 1 through 9 must fill each row, column and box. Each number can appear only once in each row, column and box. You can figure out the order in which the numbers will appear by using the numeric clues already provided in the boxes. The more numbers you name, the easier it gets to solve the puzzle!

## WHY IS IT?

A man wakes up after sleeping...  
Under an ADVERTISED blanket  
On an ADVERTISED mattress  
And pulls off ADVERTISED pajamas  
Bathes in an ADVERTISED shower  
Shaves with an ADVERTISED razor  
Washes with ADVERTISED soap  
Put on ADVERTISED clothes  
Drinks a cup of ADVERTISED coffee  
Drives to work in an ADVERTISED car  
But then refuses to ADVERTISE his  
business, believing it doesn't pay.

Later, when business is poor,  
he ADVERTISES it for sale...

## WHY IS IT?

**ADVERTISE YOUR BUSINESS  
IN BREVARD'S LOCAL NEWSPAPER  
BEFORE IT'S TOO LATE!**

(321) 752-0070

## DID YOU KNOW?

Five-year survival rates for prostate cancer are notably high. Johns Hopkins Medicine notes that approximately 80 to 85 percent of all prostate cancers are detected in the local or regional stages, which plays a significant role in improving survival rates for the disease. Johns Hopkins notes that many men diagnosed with prostate cancer and treated at the local or regional stages are cancer-free after five years. Indeed, the American Cancer Society reports that the five-year survival rates for localized and regional prostate cancers was greater than 99 percent. Localized indicates there is no evidence that the cancer has spread beyond the prostate, while regional means it has spread to nearby structures or lymph nodes. The high survival rates for local and regional prostate cancers underscore the effectiveness of screening for the disease. The ACS recommends men who are at average risk for prostate cancer discuss screening with their physicians at age 50, while those at high risk should open such a dialogue at age 45. Men at very high risk, which includes individuals with a first-degree relative who had prostate cancer at an early age, should discuss screening upon reaching age 40. When prostate cancer has spread to other parts of the body, the five-year survival rate is 34 percent.

*The month of August has been home to many historical events over the years. Here's a look at some that helped to shape the world in August 1924.*

\* Three people are killed and 10 others are injured when a boiler fire erupts on the French battleship Courbet on August 1. The Courbet survives the fire and is eventually utilized during World War II.

\* Boca Raton, Florida, is incorporated as “Bocaratone” on August 2. The name is changed to “Boca Raton” less than a year later.

\* John Carroll O'Connor is born on August 2 in Manhattan. O'Connor would become one of the most memorable television actors of all time, notably portraying "Archie Bunker" in the sitcoms "All in the Family" and "Archie Bunker's Place" in the 1970s and early 1980s.

\* Berlin Jews hold a memorial service for Jewish soldiers who died during World War I on August 3. The Jewish service takes place after a Jewish preacher was forbidden from delivering a prayer during a similar service held outside the Reichstag commemorating German soldiers who died during the war.

\* Women from six European nations compete in the first Women's International and British Games in London on August 4. The competition is held because track and field events at the Summer Olympics were limited to men only.

\* Confidence man Charles Ponzi is released from prison in Plymouth, Massachusetts on August 6. Ponzi served less than four years of a five-year sentence for financial crimes.

\* Grand Duke Kirill Vladimirovich of Russia, a first cousin of the late Tsar Nicholas II, declares himself “Guardian of the Throne” for the Russian Empire on August 8. Two years later, the Grand Duke would declare himself the emperor-in-exile.

\* On August 10, Austrian police claim they discovered a Soviet slush fund for stirring up unrest and revolt in the Balkans.

\* The earliest sound film footage of an American president is recorded on August 11 when Lee de Forest films U.S. President Calvin Coolidge on the White House lawn. De Forest uses his experimental Phonofilm process to make the recording.

\* Andrew S. Anderson, the Democratic Party nominee for South Dakota Governor, is gored by a bull on his property on August 11. Anderson does not survive the attack.

\* Former world middleweight title holder Kid McCoy shoots his lover, Teresa Mors, on August 12 in Los Angeles. McCoy, retired from boxing at the time of the shooting, shot Mors in a drunken rage after she told him what her friends thought of him.

\* Anthropologist Margaret Mead arrives in Samoa on August 17. Mead proceeds to begin working on her book, *Coming of Age in Samoa: A Psychological Study of Primitive Youth for Western Civilisation*, which became a landmark text and sparked years of ongoing, intense debate upon its publication in 1928.

\* Canadian mountaineers complete the first ascent of the 2,603-meters-tall Mount Fitzsimmons in British Columbia on August 19.

\* United States Senator Nathaniel B. Dial and John J. McMahan, his challenger for the Democratic Party nomination in an upcoming election, are each arrested for disorderly conduct in South Carolina on August 20. Dial approached McMahan brandishing a chair during a campaign meeting that became contentious.

\* On August 23, the planets Mars and Earth are the closest they had been since August 18, 1945. The two planets, which were the equivalent of around 34.6 million miles from one another, would not be as close again until August 2003.

\* On August 26, The Montreal Star publishes an interview with American automotive executive Henry Ford in which the industrialist claims the Ku Klux Klan was a patriotic organization and “a victim of lying propaganda.”

\* Director John Ford's first major film, "The Iron Horse," premieres in New York City on August 28.
